

## Communication

### Leadership Team member

**Alan Gwynn**

#### **Responsible for:**

Facilitating and improving two-way communication between the Leadership Team and all of our congregations.

#### **Highlights from 2015:**

The two key MAP objectives which were the focus for 2015 were:

- Develop effective ways of communicating the MAP to the whole congregation.
- Facilitate the monitoring and communication of our progress against the MAP.

A major area of progress here is our website which now includes a section on the Mission Action Plan, while the Leadership Team area now has regular updates from our meetings. We also published the first “Orange Sheet” in October, reporting progress against our MAP objectives for the year. We plan to repeat this every 6 months.

#### **Plans for 2016 include:**

- Continue to build on the progress made in 2015 in communicating and monitoring MAP progress.
- Hold another round of “meet the Leadership Team” sessions where LT members introduce their strands to the congregations.
