

Communication

Leadership Team member

Alan Gwynn

Responsible for:

Facilitating and improving two-way communication between the Leadership Team and all of our congregations.

Highlights from 2017:

The major activity during the year was the “half time” review of the Mission Action Plan. This showed encouraging progress across much of our life and work together, but also identified some important areas for future focus. Looking ahead, the major task during 2018 will be the re-structuring of the Leadership Team to cover the whole of the Benefice. This will be an important step in drawing us closer together as a church family.

During 2017, we have continued to update our website regularly with updates from Leadership Team meetings. Two “Orange Sheets” were published during the year, reporting progress against our MAP objectives and the outcome of our review in October.
